

RALLY OF SOUTH CANTERBURY

SPECIAL STAGE DESCRIPTIONS

SS 1 Southburn 12.40km: Fast open well formed lightly metalled public road. A small section of seal of no consequence in the centre of the stage

SS2 Burnetts Rd 18.92km: Fast flowing well formed public road with a light metal covering. An interesting ford close to the finish will keep you awake.

SS3 Rutherford Rd 16.75km: Fast flowing well formed public road with a light metal covering

SS 4 Rollersby Valley Rd 27.85km: Fast flowing well formed public road with a light metal covering, a tighter section in the centre as one crosses the pass into the Mackenzie Country.

SS 5 Middle Valley Rd 13.93km: Fast flowing well formed public road with a light metal covering down a pleasant open valley.

SS 6 Hanging Rock 26.63km: Fast flowing well formed public road starts through a valley before opening out over rolling ridges and returning back to the start point

SS 7 Mt Gay Rd 14.00km: Well formed hard based based public with a small section of seal of no consequence in the middle. Stage finishes with a steep narrow downhill descent

SS 8 Limestone Valley Rd 6.05km: Fast flowing well formed public road with a light metal covering down a pleasant open valley.

SS 9 Taiko 7.84km: Fast flowing well formed public road with a light metal covering over rolling ridges.
